

Luxury Interiors by SPORTCHASSIS

Luxury in a work truck?

You bet your bottom dollar!! As an owner, you have worked diligently to provide a top notch service to your customers, and let's face it, you deserve to ride in style. Finally, there is a work truck that suits your appetite for comfort.

Introducing the new SportChassis Packages available on the Freightliner M2 and SD chassis. Luxury solutions are available to fit in both the M2 106 and the M2 112, as well as; the 108 SD and the 114 SD chassis, addressing the needs for the day cab and the crew cab versions of each. SportChassis produces the finest line of luxury class modifications to the M2 platform and has for the last 12 years. Often tagged as the industry leader, SportChassis has a long standing reputation for setting the industry standards in luxury, safety, comfort, quietness and innovative styling. With standards such as push to start, interior insulation, engineered sound deadening packages and luxury Bostrom SportChassis seating, the SportChassis interior is unlike anything on the market today. As with every current SportChassis build, SportChassis matches the basic vehicle warranty. So your customers are covered with piece of mind as well as comfort.

Each Freightliner dealer has a list of additional options that will not only make your truck more comfortable, but will also help you work smarter. Many available options were taken out of our emergency vehicle line as well as the exterior upgrades to help set your trucks apart.

For the first time ever, you do not have to own a SportChassis to enjoy the creature comforts that you have earned and desire. The new SportChassis Packages will make any Freightliner M2 or SD into your very own "Boss" truck. Contact your local Freightliner dealer to ask how you can upfit the truck of your dreams.

M2 Strut Grille HCP-611

Stand out from the crowd with jewelry-grade stainless steel surround and diamond woven mesh with STRUT and SportChassis badging. Kit replaces: primary, lower intake, & side vent grille

M2 Grille Guard HEL-600

This high-strength aluminum replacement bumper provides maximum protection and is designed to withstand the demands of the diverse and harsh environments trucks are exposed to.

M2 Cab Comfort - SpecPro 689-092

This is a complete heat and air system designed for the Freightliner M2 crew cab. Controlled from the dash, system mounts beneath the cab delivering a steady flow of air from vents in the headliner.

Mobile Internet HEO-904

Turn your truck into a rolling wi-fi hotspot, connect multiple devices to the internet. Connect: laptops, smartphones, netbooks, iPads, media players, game consoles, etc. Convenient docking station allows for easy vehicle transfer. Subscription required.

KVH Satellite HEO-903

Enjoy more than 300 channels of DIRECTV service and favorite programs while on the road. The 5-inch ultra-low profile of TracVision unit sets a new standard for in-motion satellite. A subscription is required for service.

Wheel Enhancement HCM-620

Turn heads with a work truck? The SportChassis wheel enhancement package totally Conceals ordinary look of your factory wheels with chrome nut covers, custom SportChassis badged hubcaps, and axle covers.

Advanced Keys™ Push to Start HCP-611
Hands-free keyless entry and start feature allows you to lock/unlock doors and start the engine without physically using your keys. Activates with proximity to the keyfab or wallet size transponder.

Turn Signal Cameras HEN-911
See better and drive safer with the turn signal camera system. Discrete cameras attach to the A-pillar cover and provide full view of what is beside your vehicle. System requires HCO-913.

Stereo Navigation HCO-913
Kenwood touch panel AV receiver with built-in Garmin navigation, Rear Camera System, Amplified 10" subwofer and 6.5" door speakers, Sirius XM ready, Bluetooth, HD radio, remote control interface, plus iDataLink

Flip Down TV HCO-905
Sleek fold-down overhead 15.1" LCD TV. Take advantage of multiple source inputs and integrates with a head unit, comes equipped with wireless headphones. Operates using the push button controls or supplied handheld remote control.

SportChassis Console MEM-01
Large center console internal lighting, 12v ports, USB ports, 115V inverter with 2 outlets, removable cup holders, automatic internally lit compartments, and a leather wrapped top ties in that classic SportChassis styling

SportChassis Backpack Storage
Take advantage of the space you already have. We have designed the SportChassis Backpack unit to mount into any M2 or SD Freightliner cab. This storage unit replaced the back glass and provides additional space for gear.

110v & 12v In-Dash Power Ports

From cell phones to laptops, having the ability to power your devices decreases downtime from dead batteries and inherently increases your ability to get more work done.
